MISSION STATEMENT

To maintain a cohesive organization that serves its membership by promoting the art, science and professionalism of dentistry, and by communicating the value of optimal oral health to the community.

VOL. 54 OCTOBER '16 NO. 08

President's Message

By Richard L. Owens, D.D.S. – NODA President

Hello all NODA members, colleagues, and friends. I hope everyone is enjoying the fall activities and football. Now, sooner than we realized, we are into a season of unpredictable weather and hopefully some cooler temperatures. Keep cheering for the Saints, Tigers, and Wave, and many others during this game season! I hope all of you have a great Halloween!

Our NODA Board of Governors and office staff have been working hard to keep providing several great benefits and activities for you. We have some wonderful CE dinner sessions coming up for you and are looking forward to another wonderful conference in April of 2017. We welcome any volunteers to help us accomplish our goals and enhance our capability with any new committee involvement and ideas.

Our 2017 NODC/LDA Annual Session chair, Dr. Eliot Guerin and his committee members and advisors are doing an unbelievable job in organizing and implementing another wonderful conference benefit for our members and guests.

Our theme for 2017 is "Dentistry and All That Jazz" and we will be coinciding again with the French Quarter Festival weekend. So attendees can plan on enjoying the music, food, and fun just a few blocks away from the Convention Center. We are featuring some great speakers such as Dr. Terry Tanaka on "*Esthetics, Restorative, and TMJ*", Dr. Marty Zase on "*Cosmetic Pearls*", and Dr. Craig Misch on "*Avoiding Implant Complications*." Once again, we are following our lower registration fees to benefit and ease the burden for our members to attend, and we are offering a wide range of basic and premium paid courses for our members' enjoyment, some of which will be with no fee attached.

If you would like to help with "Keep New Orleans' Musicians Smiling" you may contact ERICADUDAS@NOMAF.ORG or call 504/415-3514 and mention Adopt A Musician.

I would like to personally thank Dr. Maria Burmaster and her multiple committees, workers, and volunteers for implementing another wonderful and successful LA-

MOM event this year. Many Louisiana and out of state dentists and auxiliary personnel helped a lot of people during this event. In addition, I am grateful for all those volunteers from the LDA, NODA, and multiple other components throughout the state for their help and generosity.

I would also like to personally thank Dr. Glenn Dubroc, Jr. for his professional slide presentation at our September General Membership Meeting with regard to the history and future of our NODC/LDA Annual Session. The amount of time, work, effort, and phenomenal leadership that Dr. Dubroc has provided with regard to our annual conference and its future are greatly appreciated by us all.

Come on out and be with us for our next General Membership Meeting on October 19th at Jack Dempsey's in New Orleans. Dr. Gustavo Coutin, our President-Elect Scientific Chair, has arranged for a wonderful CE Dinner venue for our enjoyment. We all are very grateful for our sponsors Crest/Oral-B and Septodont, Inc. for contributing and allowing us to offer this seminar. And we have a treat for this one since our own Dr. Suzanne Fournier will be our speaker. Please review the details shown in this newsletter.

Con't. on pg 2

Seeking Nominations for NODA Honor Dentist

by Glenn C. Dubroc, Jr., D.D.S. – NODA Honors & Awards Committee Chair

The New Orleans Dental Association Honor Dentist award is presented annually “in recognition of outstanding contributions and exemplary conduct in the profession of dentistry.” You are encouraged to submit nominations of a member or members that you feel are deserving of NODA’s most

prestigious honor. The deadline for nominations is Wednesday, November 30, 2016.

Your nomination should list the nominee’s accomplishments and reasons why you believe he or she is deserving of the Honor Dentist award. Mail your nominations to the attention of Dr. Glenn Dubroc, Honors & Awards Committee Chairman, c/o New Orleans Dental Association, 2121 N. Causeway Blvd., Suite 153, Metairie, LA 70001. You may also fax your nomination to 504/838-6909 or e-mail it to andrew@nodental.org. No nominations can be accepted after November 30, 2016. The recipient will be announced at the January 2017 General Membership Meeting and in the February 2017 edition of NODA News.

President’s Message - Con’t.

By Richard L. Owens, D.D.S. –
NODA President

If you served as a delegate for NODA at the LDA Annual Session back in April, and would have an interest in serving again, or if you have never been a delegate and would like to do so, please contact the NODA office. The next LDA Annual Session will be in April of 2017.

And finally, please look for the nominations for the 2017 NODA Board of Governors in the November issue of *NODA News*.

HAPPY HALLOWEEN!!

Upcoming Scientific Programs

by Gustavo M. Coutin, D.D.S. - NODA Scientific Program Committee Chair

DATE LOCATION TIME	SPEAKER TOPIC OBJECTIVES	SPONSOR
<p>October 19, 2016</p> <p>Jack Dempsey's 738 Poland Avenue New Orleans, Louisiana 70117 504/943-9914 www.jackdempseys.net</p> <p>Registration: 6:30 pm Course: 7:00 pm</p> <p>CE: 1 clinical hour Fee: \$20.00</p>	<p>General Membership Meeting & CE Dinner</p> <p>Speaker – Suzanne E. Fournier, D.D.S. Dr. Suzanne Fournier graduated from the University of Michigan School of Dentistry and went directly to the University of Florida in Gainesville for a residency program in pediatric dentistry. Upon graduating from her residency program, Dr. Fournier became a National Health Service Corps Loan Repayment Awardee and practiced in a community health clinic in Palatka, FL, where she was the only pediatric dentist in 5 counties, and the only one in 7 that accepted Medicaid. After her contract of 3 years was completed, she continued with the NHSC Loan Repayment Program here in Louisiana in New Orleans, Kenner, and Baton Rouge. A year after moving to New Orleans, she was nominated to be the Louisiana Public Policy Advocate for the American Academy of Pediatric Dentistry – a position she still holds. Once her service obligation was completed, she accepted the position as Postgraduate Program Director in the Department of Pediatric Dentistry at LSU School of Dentistry, where she has worked for the last two years.</p> <p>Topic – “Emergencies: Dental Trauma and Odontogenic Infections” Dental emergencies can require complex management in order to obtain optimal results. These cases can pose a major challenge to the practitioner. This lecture will address dental trauma focusing mainly on the immature and permanent dentition as well as odontogenic infections and facial swellings.</p> <p>Learning objectives: By the end of the talk, participants should be able to: 1.) Correctly identify the type of trauma a patient has sustained. 2.) Manage a dental trauma. 3.) Know the difference between primary, immature permanent teeth avulsion protocols. 4.) Provide anticipatory guidelines to parents of children who have sustained dental trauma. 5.) Appropriately prescribe antibiotics for odontogenic infections.</p>	<p>Septodont, Inc. Matt Winstead succeeds his father, D. Thomas Winstead, in the leadership of the laboratory. Matt graduated with a BS Degree in Management from Samford University in 2004 and became a Certified Dental Technician in 2011 specializing in Complete Dentures. He actively serves on the board of directors for the Huntsville Community Free Dental Clinic and S-Ray Inc., an ultrasonic technology firm. Mr. Winstead has lectured to numerous dental societies and dental schools including NOVA Southeastern University, GRU College of Dental Medicine, UAB School of Dentistry, Mississippi Dental Society, and UT Memphis College of Dentistry. Prior to his leadership in the laboratory, Matt was an elite triathlete and professional cyclist. Mr. Winstead has been a child sponsor through Compassion International since 2003 and participates in personal and corporate support of Compassion Student Centers in Cochabamba and Santa Cruz Bolivia.</p> <p>Topic – “Current Trends in Dental Lab Technology” Do you often feel overwhelmed with the amount of new crown materials offered from dental labs and how to use them? Do you want to know more about IntraOral Scanners and how they work in a practical way that can make you more money? This course gives you an overall, objective viewpoint of the latest fixed restorative material options and how to incorporate them into your practice. This course will explain Anterior Zirconia, a new product being heavily marketed by labs across the country; many doctors are unaware what this material is nor understand its applications and limitations. IntraOral Scanning is one of the hottest topics in dentistry, this course will give you insight into which scanners are actually being used in the market as well as unique time and money saving techniques when using them. Many labs are marketing a full arch monolithic screw retained prosthesis. Learn what this is and how it is made as well as real life clinical techniques to do them.</p> <p>Learning objectives: During this lecture, participants will learn:</p> <ol style="list-style-type: none"> 1.) Latest laboratory materials being used for fixed prosthodontics, overview, market trends, advantages, disadvantages, ways to incorporate into practice. 2.) Anterior Zirconia, material explanation, brand differences, clinical applications and lab experiences. 3.) What IntraOral Scanners are most popular in the market including laboratory experience with the latest IOS Systems. 4.) Unique uses for IOS Systems in the clinic and laboratory. 5.) Full arch zirconia screw retained prosthesis lab technique, trend an overview. 	<p>Darby Dental Supply, LLC Vance Rudnet Senior Account Manager 3300 University Drive, Suite 250 Coral Springs, Florida 33065 1-800-448-7323 Ext. 2124 vance.rudent@darbydental-supply.com www.darbydental.com</p>

Upcoming Scientific Programs - Con't.

by Gustavo M. Coutin, D.D.S. - NODA Scientific Program Committee Chair

DATE LOCATION TIME	SPEAKER TOPIC OBJECTIVES	SPONSOR
	<p>Speaker – Mark D. McOmie, D.M.D. Dr. Mark McOmie is a general dentist who is in private practice with his wife, Ellen, who is also a dentist. The practice is a fee for service practice that they started from scratch. His practice focuses on Cosmetic and Implant dentistry. Dr. McOmie is an expert in the area of dental materials. He has many publications on dental materials and techniques to use them. He has been published in Dental Product Shopper, Cosmetic Dentistry magazine, ADA Dental Product Guide, ADA News just to name a few. He is an active dental researcher for Gordon Christensen's C. R. Foundation, evaluating over 400 materials to date. He is a featured speaker throughout the country. Frequently he advises and consults for several dental companies and dental laboratories. Dr. McOmie did his undergraduate studies at the University of Utah and graduated from dental school at the University of Louisville. He is a Fellow in the American College of Dentistry, Fellow in the International College of Dentistry, and a member of the Pierre Fauchard Academy.</p> <p>Topic – “The Latest Materials for Higher Quality and Faster Dentistry” Materials and methods are changing constantly. There are thousands of dental products that come on the market each year, yet very few of those materials will still be on the market in 3 years. Many manufacturers are pushed to bring products to the market before they have been properly developed and researched. That leaves a huge burden on the private practitioner to navigate the market place to find what works best, while hopefully avoiding things that don't work. New crown and bridge materials are coming to market each year promising to be the next great material, many fail almost immediately. Some US labs are sending work overseas, sometimes without our knowledge. Being a CR evaluator, Dr. McOmie has evaluated hundreds of products, many before they go on the market. He has a private practice, he works full time and know the demands of every dentist. Always striving for better ways to do procedures with better materials that can help us do higher quality, increase our speed and make us more profitable. A win win for us and our patients. With the change in crown materials in the last few years there have been many changes to our cement as well. Yet, the #1 question Gordon Christensen's C.R. Foundation fields right now is about cementing zirconia crowns. Where do scanners fit in? Have they dropped in price enough to make a cost effective replacement for PVS impressions? What about new retraction methods? See what is new with matrix bands and how they can make your day easier. Learn this and more about the latest materials from Dr. McOmie during his energetic course.</p> <p>Learning objectives: During this lecture, participants will learn:</p> <ol style="list-style-type: none"> 1.) How to effectively bond zirconia crowns. 2.) Know what scanners can do and if they are right for your practice. 3.) Clinical techniques and guidelines for using universal adhesives. 4.) Important clinical guideline for bulk-fill restorations. 	<p>Kuraray Dental Daniel Razzano National Account Mgr./Regional Mgr. 942 Garrett Street Atlanta, Georgia 30316 404/304-9154 daniel.razzano@kuraray.com www.kuraraydental.com</p>

Dentistry and All That Jazz

by Eliot D. Guerin, D.D.S. – NODC/LDA Annual Session Committee Chair

Hello all!

We're looking forward to another exciting year at the 2017 New Orleans Dental Conference/LDA Annual Session! Our dates for "Dentistry and All That Jazz" are April 6-7-8, 2017.

This year we once again share the weekend with the World Famous French Quarter Festival! That means music, food, and fun just steps away from the Convention Center, so you can plan on having a mini-vacation while getting top-quality continuing education. This also means planning NOW as hotel rooms, restaurant reservations, and transportation will be at a premium and harder to come by the longer you wait (however, we will have hotel blocks reserved for you once registration opens near the end of the year--get'em early!)

Speaking of CE, we'll be featuring some of the top speakers in the dental world:

--Terry Tanaka on "Learning from Esthetic and Restorative Complications", along with an additional day on TMJ/Splint issues;

--Marty Zase, one of the most entertaining speakers in the country, on "Cosmetic Pearls" (He's guaranteed to be wearing a Hawaiian shirt--possibly with matching socks!);

--Craig Misch on "Avoiding Implant Complications";

--Barbara Steinberg on "Women's Dental Health Issues" and more!

We'll be continuing some changes we made at last year's conference by having significantly lowered initial registration fees, making it easier to bring doctors AND staff. Most courses will come with a nominal charge, but significantly less than it would be to see any of these folks individually at another seminar!

As always, our exhibit hall is where it all happens! Make sure to patronize your vendors, see all the new technology, reserve some of your office purchases for the conferences, and then stay for the king cake and happy hours we plan on having again! Remember, our exhibitors help pay for your conference, making your continuing education more affordable, so support them as best you can!

We'll also be continuing our partnership with the LSU School of Dentistry Alumni in sponsoring our cocktail party. The NODC Welcome Reception and LDA President's Party, combined with LSUSD Alumni, was a huge success last year at The Chicory (just a couple of blocks from the Convention Center). New Orleans Jazz, great food, great friends--one prominent

speaker told me it was the best social event of all the conferences she's spoken at! We'll also be partnering with the New Orleans Musicians' Clinic this year in raising awareness of providing medical and dental care to those who give us so much pleasure in this city but do need help. They'll be providing the musicians for our party and we'll be publicizing their programs and encouraging dentists to step up and help an important part of our city and state's culture stay healthy!

So make your plans now to attend the Louisiana's preeminent dental meeting!

Medical Disposal Systems!

Medical Disposal Systems has 35 years of experience in the transportation and disposal of regulated medical waste. Our locally owned and operated business model cares about the community, and our Louisiana location is carrying on the tradition. "Helping to Protect the Environment" is what we strive for each and every day.

MDS will consult with you to determine the amount of medical waste you are generating. This will allow us to schedule your service based on the quantity of medical waste you produce. Our service offering is simple per container pricing with no monthly fees or any other fees whatsoever. You don't pay anything until we actually pick something up.

Jack Butcher is a Partner and Director of Sales at MDS and has almost 11 years of experience in the regulated medical waste field with a focus on educating medical waste generators on compliance and proper segregation of medical waste, RCRA hazardous waste and hazardous waste streams in all market segments of the medical community. MDS's goal of helping you to reduce your medical waste footprint is "Helping to Protect Our Environment".

For information on service and special rates for NODA members contact Jack Butcher personally.
