VOL. 53 NOVEMBER '15 NO. 09

President's Message

by Donald P. Bennett, D.D.S. – NODA President

Hello Everyone,

I can't believe it's November already. The year is really flying by. Early in the month, many of us will be attending the ADA meeting in Washington DC. Dr. Gary Roberts,

our 12th District Trustee to the ADA, is running for president. It appears as though he has as good a chance, if not better, than the other two candidates, to win the position. If elected, he would be the first ADA president from Louisiana in over 100 years! If you are going to the convention, please show your support for Gary.

Wednesday, Nov. 18th is the date of our next general membership meeting. It will be at Courtyard on the Ridge in River Ridge and our guest lecturer will be Dr. Corky Willhite speaking on esthetics. We

will also approve a new slate of officers and directors for the NODA Board of Governors. These candidates will take office in 2016. Hope to see you there!

Remember that the New Orleans Dental Conference/LDA Annual Session will be coming up in April and Dr. Jeffry Leeson has already put together an outstanding lineup of speakers, which include Dr. Gordon Christensen and Dr. Gerard Chiche. Please make plans to attend.

Happy Thanksgiving!

Upcoming Scientific Programs

by Richard L. Owens, Sr., D.D.S. - NODA Scientific Program Committee Chair

DATE LOCATION TIME	SPEAKER TOPIC OBJECTIVES	SPONSOR
November 18, 2015 Courtyard on the Ridge 407 Folse Street Harahan, Louisiana 70123 504/737-6660 www.courtyardontheridge.com Registration: 6:30 pm Course: 7:00 pm CE: 1 clinical hour	Speaker – Corky Willhite, D.D.S. Dr. Willhite has achieved Fellowship by the Academy of General Dentistry, the American College of Dentists. He is one of only 60 Fellows of over 6,000 American Academy of Cosmetic Dentistry members worldwide and has served on their Board of Governors (currently American Board of Cosmetic Dentistry) and spent years as an Examiner for Accreditation. He is on the faculty of the Center for Esthetic Excellence in Chicago. His private practice is in suburban New Orleans, The Smile Design Center, is limited to Cosmetic Dentistry. Topic – “Pearls for Common Problems with Anterior Composites” Whether you are a master or a beginner with composite, the “pearls” covered in this course should improve your success with all anterior composites. You’ll also learn new solutions for some common problems. Composite is the best material to use when you want a single appointment procedure and a more affordable option compared to porcelain restorations. And composite is the most conservative option since these techniques require little or no prep. Learning objectives: 1.) How to create undetectable margins supragingivally and smooth margins subgingivally. 2.) Correcting open gingival embrasures or “black triangles.” 3.) Understand why prepping is counterproductive in diastema and peg lateral cases. 4.) Contouring and polishing technique for an incredibly natural finish.
