American Dental Association Releases CDT 2016: Dental Procedure Codes

CHICAGO, Sept. 8, 2015 — Available now from the ADA, [CDT 2016: Dental Procedure Codes](#) is an indispensable resource for dentists and dental offices working with third-party payers required to use CDT codes.

The Code on Dental Procedures and Nomenclature contained in CDT 2016 is the only HIPAA-recognized code set for dentistry, and CDT 2016 highlights 19 new, 12 revised and eight deleted codes. The [CDT 2016 Companion: Help Guide and Training Manual](#) includes detailed coding scenarios and answers the most common coding questions to ensure ease of use. An award-winning [smartphone app](#), available for both iOS and Android, also allows dental professionals to access CDT codes in the palm of their hand. An [e-book and several product bundles](#) complete the CDT 2016 offerings.

The early fall availability of these tools allows time for staff training before the codes go into effect on Jan. 1, 2016. CDT 2016 products can be ordered at [adacatalog.org](#) or by calling the ADA Member Service Center at 1-800-947-4746.

About the American Dental Association

The not-for-profit ADA is the nation's largest dental association, representing more than 158,000 dentist members. The premier source of oral health information, the ADA has advocated for the public's health and promoted the art and science of dentistry since 1859. The ADA's state-of-the-art research facilities develop and test dental products and materials that have advanced the practice of dentistry and made the patient experience more positive. The ADA Seal of Acceptance long has been a valuable and respected

guide to consumer dental care products. The monthly *The Journal of the American Dental Association* (JADA) is the ADA's flagship publication and the best-read scientific journal in dentistry.
