NODA News

MISSION STATEMENT

To establish and maintain a cohesive organization that serves its membership by promoting the art, science and professionalism of dentistry, and by communicating the value of oral health to the community.

VOL. 46 NOVEMBER '08 NO. 09

President's Message

by Ambrose M. Martin, III, DDS - NODA President

Greetings to all of my colleagues,

The fall season is upon us, leaves are changing and most of the days are full of pleasant weather. I hope that all of you are in good spirits and health. Please remember to continue to reach out to our colleagues that are still recovering from the September storms, Gustav and Ike. They may still need your encouragement and assistance.

I would like to extend a personal invitation to all members to participate in the General Membership meetings. Dr. Jeffry Leeson and the NODA staff are continuing to work hard in finding sponsors and speakers of interest for our meetings. The sponsors assist in providing meals and allowing for our meetings to be held in local restaurants for a nominal fee. This makes for a more interesting evening of CE and socializing with colleagues.

This month, Dr. Jeffry Leeson and his nominating committee will list the nominees and open officer positions for our Association for 2009. If you are interested in serving as a Board Member or wish to nominate a colleague, please contact Dr. Leeson or a member of the committee. Our Association needs your involvement and service.

Also, preparations are currently underway for 2009

Children's Dental Health Month and Give Kids a Smile. We at the NODA Board would like to see all members involved with these very important projects. Please contact Dr. Jason Parker or the NODA office for more information on how you can participate.

The 2009 Conference Committee continues with preparations for next year's Conference. The first mailing of information about invited speakers has already been sent out. Your support and participation as volunteer hosts and room monitors is still needed. Please contact Dr. Mark Chaney or the NODA office to volunteer your time.

In closing, I wish you all well and continued good health. I will see you all at our next General Membership meeting.

Upcoming Scientific Meeting

by Jeffry A. Leeson, DDS - NODA Scientific Program Committee Chairperson

November General Membership Meeting

November 19, 2008 at Colonial Country Club, 42 Colonial Club Dr., Harahan, LA 70123. Phone #: 504/737-2844

Speaker - Kavas H. Thunthy, B.D.S., M.S., M.Ed. Dr. Thunthy is a professor of Oral and Maxillofacial Radiology in the Department of Oral Medicine and Radiology at the Louisiana State University School of Dentistry in New Orleans, since 1975. After specializing in Oral & Maxillofacial Radiology from the University of Alabama in Birmingham, he received his Masters in Education degree from the University of New Orleans. In 1978, he was named a Fellow in the American Academy of Oral and Maxillofacial Radiology and in 1981 was board certified by the American Board of Oral and Maxillofacial Radiology. In the past 33 years of teaching at LSU Dental School, Dr. Thunthy has published more than 70 articles in dental journals and has presented several continuing education courses. He is the author of the textbook entitled Dental Radiographic Diagnosis. Presently, in addition to his teaching responsibilities, he has a part-time practice, specializing in 3D maxillofacial imaging using the ICAT Cone Beam CT. Most of the patients referred to him are from local dentists in need of 3D images of dental ridges before the placement of implants.

Topic of Presentation - "3D Cone Beam Technology and its Applications in Dentistry"

In dentistry, the latest advance in imaging technology is the Cone Beam CT (CBCT). The clinician now has at his/her disposition 3D images of the maxillofacial region. Visualization of all pertinent vital anatomical structures is now possible. CBCT technology also makes it possible to accurately measure and store digital images. The CT scans are used to assist in dental implant placement, third molar extractions and other surgical procedures, TMJ imaging, diagnosis and treatment planning of orthodontic cases, 3-D imaging of skeletal structures, and exact tooth position in relationship to abnormal anatomy. The presentation will include a basic explanation of CBCT, the use of the iCAT Vision software, interpretation of images, and clinical cases of lesions incidentally detected while imaging.

Objectives -

- 1.) Explanation of the principle of the Cone Beam CT (CBCT)
- 2.) Use of the iCATVision software
- 3.) Uses of the CBCT in dentistry
- 4.) Discussion of clinical cases incidentally detected on CBCT images

The Economic Stimulus Act may provide lucrative tax incentives to your business when you place eligible equipment in service in 2008. The plan applies only to this tax year, so now is the time to implement that project you've been thinking about!

Under the Economic Stimulus Act, you may benefit from:

- 50% bonus depreciation (in addition to regular applicable MACRS depreciation)
- The Section 179 deduction for tax year 2008 increases from \$128,000 to \$250,000
- The maximum threshold for Section 179 expensing rises to \$800,000 (up from \$510,000)

These provisions give you added flexibility to acquire more eligible equipment in 2008 and enjoy a significant bump in your first year tax write off. When tax savings are taken into account, your equipment may cost you close to nothing in the first year, especially if you choose financing!

Upcoming Scientific Meeting - cont.

by Jeffry A. Leeson, DDS - NODA Scientific Program Committee Chairperson

Our financing partner, US Express Leasing, makes it easy to cost-justify your purchase and allows you to spread payments over time while maintaining the benefits of ownership - a component necessary to take advantage of bonus depreciation and Section 179 enhancements.

December General Membership Meeting

December 17, 2008 at Five Happiness Restaurant (Imperial Room), 3511, S. Carrollton Ave., New Orleans, LA 70118. Phone #: 504/482-3835.

Speaker - Randall G. Cohen, DDS. Dr. Cohen was a member of the Consulting Staff, Department of Surgery, Delaware Valley Medical Center in Longhorne, PA. In addition to his many civic activities and his private practice, Dr. Cohen has published numerous articles, participated in many lectures at state, regional, and national meetings, and to use his words "simply loves dentistry." Dr. Cohen graduated from Temple University in 1982 and has been in private practice since. He completed an externship program in the Department of Oral Surgery at Jackson Memorial Hospital in Miami, FL and an externship program in the Department of Dentistry at Suburban General Hospital in Norristown, PA.

Topic of Presentation - "The Expanded Use of Improved Flowable Composite"

New techniques for a new super-filled flowable resin that is ideal as a cavity liner, ideal for Class 1 resto-

rations, ideal for Class II Restorations, ideal as a liner under a routine Core Buildup, ideal as a Core Buildup to treat a vertical fracture, and ideal for Class V Restorations. After this lecture, participants should be able to achieve the following listed objectives.

Objectives -

- 1.) Understand the potential uses for flowable composites affect their clinical performance
- 2.) Understand how mechanical properties of flowable composites affect their clinical performance
- 3.) Learn the advantage and the technique for using flowable composites as a cavity liner
- 4.) Understand the C-Factor and how to counter the damaging effects of polymerization shrinkage
- 5.) Learn how to restore certain cavity preparations using flowable composites

AADE 2008 Dental Service Award Recipient

by F. Thomas Giacona, DDS, NODA Honors & Awards Committee Chairman

Congratulations to our NODA News Editor, Dr. Kristi M. Soileau, for her selection as a recipient of the 2008 Dental Editor Service Award from the American Association of Dental Editors (AADE) and the ADA. This certificate for recognition is presented to Dr. Soileau for her 20 years of service as the Editor of our *NODA News*. She was presented this Award by our ADA President, Dr. Mark Feldman, and the AADE President, Dr. Michael Mailhofer, at the ADA Leadership session this October 15th in San Antonio. On behalf of the President, Board, and members of NODA, a big hug and thank-you, Kristi, for your tireless dedication and service!

Statistics Tell Story About Freshmen Dental Class

The Class of 2012 at the LSU School of Dentistry is comprised of 60 students chosen from a field of 250 applicants. There are 37 men and 23 women in the class, with an average age of 24 years. They come from 27 different Louisiana cities and 22 colleges.

The grade point average for the class is 3.6 and the average score on their Dental Admission Test was 19 which translates to the 86th percentile. Fifty-four are from Louisiana, four from Arkansas, one from California and one from Texas.

In their first rite of passage into the dental profession, the students had their white coat ceremony on September 19th in which they made a public oath to the highest ideals of dentistry.

The students were helped into their coats by four members of the faculty who have received awards for excellent in teaching: Dr. Laurie Moeller, associate professor in the Department of Prosthodontics, who is recipient of this year's Copping Award, and the three winners of the Golden Apple Awards, Dr. Kenneth DuBois, clinical assistant professor in the Department of Comprehensive Dentistry; Dr. Tobias Rodriguez, instructor in the Department of Oral & Craniofacial Biology and Dr. Chet Smith, associate professor in the Department of Comprehensive Dentistry.

Freshman class

Members of the class are Obialunamma Agubuzu, Ashley Altazin, Jason Alvarez, Renee Bourgeois, Matthew Brady, Joshua Brandner, Bryan Broussard, Jeremy Brown, Haley Bui, Zachary Bulmanski, Erin Carter, Danielle Causey, Danielle Decou, Chase Dronet, Michael Farrar, Chad Gustafson, Jeffery Hennigan, Hung Hoang, John Hobgood, Thomas Holman, Andrew Hood, Stuart Huntsman, Mohammed Ismail, Cole Johnson, Catrinel Jordan, Richard Keech, Khaliq Khan, Kevin Kidder, Ian Landesman, Kallie Leyser, Chase Martin, Ryan May, Mary McClendon, Jacob McInnis, Katie Medine, Alexis Nacchio, Danny Nguyen, Khuong Nguyen, Quynh The Nguyen, Thu Nga Nguyen, Jin Park, Matthew Parker, Jay

Practice Transitions Made Perfect™

Nominations Due for New NODA Officers and Delegates

The 2008 Nominating Committee, chaired by Dr. Jeffry A. Leeson, is now accepting nominations for open officers and elective positions of NODA in 2009. As is required by NODA Bylaws, Article XIII, Sections 1 to 11, the Nominating Committee for 2009 has been formed. The members of the Nominating Committee you can contact are: Dr. Jeffry A. Leeson, Dr. Kristi M. Soileau, Dr. Brant W. Schmidt, Dr. Sammy Tom, and Dr. Gregory P. Guerra.

Offices for which nominations may be submitted are: First Vice President, Second Vice President, Secretary (2 year term), and Treasurer (fulfilling 2nd year of 2 year term after resignation of Dr. Laurie F. Moeller).

Elective positions for which nomination may be submitted include: (1) At-Large Board Member, (3 year term); (1) Director to the LDA, (2 year term); (2) Alternate Directors to the LDA, (1 year term); (1) Delegate to the ADA, (3 year term); (1) Alternate Delegate to the ADA, (1 year term); and (22) Delegates and (5) Alternate Delegates to the next LDA House of Delegates.

Nominations may be submitted to any member of the Nominating Committee listed above or to the NODA office located at 2121 N. Causeway Blvd., Suite 153, Metairie, LA 70001. All Nominations must be in by Wednesday, November 19, 2008, the date of the November General Membership meeting. All nominations, must be submitted in writing and signed by two (2) Active, Active Life, Retired and/or Life Members in good standing. The Nominating Committee requests that nominations be submitted as early as possible so that all nominations may be considered before the Committee announces its formal slate at the November Board Meeting and General Membership Meeting.

If there is more than one candidate for any officer or elective position, candidates will have an opportunity to address the membership at the December General Membership Meeting prior to the vote of the general membership. All newly elected officers and board members will officially begin their term of office immediately upon taking the oath of office.

A Brief History of LSUSD

Dental education has a long history in Louisiana, dating as far back as 1867, with the establishment of the New Orleans Dental College, followed by the School of Dentistry at Tulane University and then the Loyola University School of Dentistry.

When Loyola could not afford to continue its dental program, the Louisiana Legislature authorized the building of a dental school as part of the LSU System. Over the span of four years, operations at Loyola were transferred to the new LSU School of Dentistry. The last class of Loyola dentists graduated in 1971. The first class of 27 LSUSD dentists graduated on June 3, 1972.

Since that first graduation, 4,258 dentists, hygienists and lab technicians have been educated here. Today, this means that 75% of the dental health care workers in Louisiana have been trained at LSUSD. The school is located on a 22-acre track of land, commonly called the City Park campus, that was acquired from the federal government. The 30 frame buildings on the site at that time were used during World War II as housing for the Navy.

In order to construct a permanent physical plant for the school, a grant was obtained from the United States Department of Health, Education and Welfare. The 344,000 square foot project cost \$15,500,000 to build. Of this total, \$10,500,000 came from the federal government and \$5,000,000 came from the State of Louisiana. It was arguably the best bargain the State of Louisiana ever got in a building. Formal dedication of the new school took place on Friday, February 18, 1972.

The flooding that followed Hurricane Katrina caused the school to relocate to Baton Rouge. Specifically, three buildings used for storage on the south campus of LSU were quickly transformed into classrooms, laboratories and offices. Tapping into 40 years of goodwill among the alumni, a network of 182 dentists, surgeons and hygienists in the community agreed to provide the clinical training and experience for our third-year students, fourth year students and residents that were provided in our regular clinics and residency programs before the storm.

A major milestone towards normalcy came in August of 2007 when students, faculty and staff returned to the New Orleans campus. The facilities in Baton Rouge are now being used as a community clinic, which is an addition to the school's satellite dental clinics in Lafayette, Independence and Alexandria.

As of October 1st, Dr. Henry Gremillion is the new dean of LSUSD. His bio can be found in this newsletter. He succeeds Dr. Eric Hovland whose bio can also be found in this program. Prior to Dr. Hovland, our deans were Drs. Jack Rayson, Allen Copping and Edmund Jeansonne. Drs. Rayson and Jeansonne are deceased.

Nominations for NODA Honor Dentist

by F. Thomas Giacona, DDS, NODA Honors & Awards Committee Chairperson

December 8th is the deadline for submission of nominations for the NODA Honor Dentist Award. This award is presented to a member in good standing "in recognition of outstanding contributions and exemplary

conduct in the profession of dentistry." Please mail your nominations and reasons for your recommendations to the attention of Dr. F. Thomas Giacona, Honors and Awards Committee Chairperson, c/o NODA, 2121 N. Causeway Blvd, Suite 153, Metairie, LA 70001, fax to 504/838-6909 or e-mail to nodental@bellsouth.net. Please remember the deadline for nominations is December 8th.

New Orleans Dental Hygienists' Association (NODHA)

Molarthon Golf Classic 2008

Once again, the New Orleans Dental Hygienists' Association and their sponsors are inviting you to join with them in helping two of our local charitable organizations, "A Child's Wish" and "A Friend in Need." Both organizations aid and assist children and families with catastrophic illnesses and life-threatening situations.

Come and play a little golf, have a lot of fun, eat and drink, all for a great cause! Our local members have worked very hard re-organizing not only NODHA, but also to re-establish its presence. This year the Molarthon will be held at the newly renovated Bayou Barriere Golf Club, November 21st. Registration begins at 12 Noon and the Shotgun start begins at 1:00pm.

Come and join us and have a fun-filled day with: a post-tournament banquet, great door prizes, give-aways, and play closest to the hole!

A registration form can be downloaded from the NODHA website (<http://nodha.org>) and click on the link titled Click here for more info and registration form.

Thanks again for your support! For more information, please contact Connie M. Comiskey at cmcomiskey23@yahoo.com.

Hollier Appoints Gremillion Dean of LSUHSC School of Dentistry

CONTACT: LESLIE CAPO

(504) 568-4806; CELL (504) 452-1966

New Orleans, LA – Dr. Larry Hollier, Chancellor of LSU Health Sciences Center New Orleans, has named Henry A. Gremillion, DDS, Dean of the LSUHSC School of Dentistry. The appointment is effective October 1, 2008.

A native of Shreveport, LSU alumnus and 1977 graduate of LSU Health Sciences Center New Orleans School of Dentistry, Dr. Gremillion will be the sixth dean of his alma mater. He succeeds Dr. Eric Hovland who stepped down after so admirably leading the recovery of the dental school in the aftermath of Katrina throughout its time in Baton Rouge and its return home. Dr. Hovland will continue to serve the Dental School and the Health Sciences Center, taking a six-month sabbatical as an Oral Health Policy Fellow for the American Dental Education Association in preparation to develop a dental public health curriculum and locate dental public health funding opportunities.

Dr. Gremillion was recruited from the University of Florida College of Dentistry where he was the Parker E. Mahan Endowed Professor of Orofacial Pain in the Department of Orthodontics and a member of the Dental Staff of Shands Teaching Hospital. He also served as Director of the Fellowship in Craniomandibular Dysfunction at the UFCD Parker E. Mahan Facial Pain Center, a post he held since 1991. In 2005, he was appointed as Associate Faculty at the Dawson Center for Advanced Dental Education. He has also been a member of the Associate Faculty of the L.D. Pankey Institute for Advanced Dental Education since 1986. Dr. Gremillion serves as a consultant to the Malcolm Randall Veterans Administration Hospital, the United States Army, Navy, and Air Force on Temporomandibular Disorders and Orofacial Pain, and to the American Dental Association's Council on Dental Practice.

"After an extensive national search, we are pleased to welcome Dr. Gremillion home to lead Louisiana's only dental school," said Dr. Hollier. "As a native son who is highly regarded nationally and internationally, Dr. Gremillion is uniquely qualified to guide the school's statewide educational and service initiatives while also increasing the school's national standing."

Dr. Gremillion began his professional career practicing general dentistry in Cottonport, LA from 1977 - 1989. He was named Cottonport Citizen of the Year in 1989 and he also served on the Cottonport City Council. He was awarded a fellowship at the Parker E. Mahan Facial Pain Center at the University of Florida College of Dentistry in 1989 which he completed in 1991.

Dr. Gremillion has been elected to leadership posts including President and Vice President of the American Equilibration Society and President of the Omicron Chapter of Omicron Kappa Upsilon, the dental honor fraternity. In 1995, he earned the highest honor of the Academy of General Dentistry—the AGD Mastership Award. This is a professional designation and requires a minimum of 1,100 hours in approved continuing dental education. Dr. Gremillion has served on the American Equilibration Society Board of Directors, the American Academy of Orofacial Pain Council, the American Headache Society Vice-Chair of Orofacial Pain, and the Trigeminal Neuralgia Association Medical Board.

Dr. Gremillion was selected as the recipient of the 2008 Theodore Weclaw Award by the Academy of General Dentistry (AGD). Among the AGD's top awards, the Weclaw Fellowship is awarded to a dentist who has made exceptional contributions to the art and science of dentistry. His awards and honors include being named Teacher of the Year numerous times, the Florida Chapter of the American College of Dentists Ethics and Professionalism Award multiple times, fellowship in the International College of Dentists, the 2002 Florida Dental Association's Educator of the Year, and the 2002 Louisiana Academy

of General Dentistry Career Service Award. Dr. Gremillion was given the General Dentistry Award by the LSU School of Dentistry in 1977 and the Distinguished Alumnus Award in 2001.

Dr. Gremillion has developed teaching materials, written book chapters, edited a textbook and is widely published in refereed scientific journals. He is the Orofacial Pain Section Editor of the Journal of Craniomandibular Practice. He also serves on the Journal of General Dentistry Advisory Board, and the Editorial Board of the Journal of Prosthetic Dentistry. He has given more than 400 presentations to professional organizations throughout the country and world.

Dr. Gremillion's research interests include temporomandibular disorders, bruxism, and psychological aspects of orofacial pain. He has participated in scientific investigation that has been awarded millions of dollars in research grants by such organizations as the National Institute of Dental and Craniofacial Research of the National Institutes of Health. His major clinical interests are the diagnosis and management of orofacial pain.

"The greatest achievement of a health care professional educator is to stimulate others to reach their highest level of quality of care and caring for patients," said Dr. Gremillion. "This can only be accomplished by fully blending the art and the science of dental medicine at all levels. It is truly an honor and privilege to be able to return to my Tiger roots and to serve my alma mater."

LSU Health Sciences Center New Orleans School of Dentistry is the only dental school in the state. Through its doctor of dental surgery, dental hygiene, and dental laboratory technology degree programs, LSUHSC's dental school educates about 75% of the dental professionals practicing in Louisiana. Dental school faculty and students provide oral health care to Louisianians through clinics in metropolitan New Orleans, Baton Rouge, Lafayette, Alexandria, Hammond, Houma, and Independence are working to improve the oral health of people throughout the state.

LOUISIANA DENTAL

CENTER- offers the ideal setting for recent dental school graduates, offering a variety of opportunities and real value to the professional experience. While allowing for autonomy and personal growth, the experience-rich environment assures the graduate that help is only a few steps away. Many of our doctors enjoy the lifestyle and freedom of performing dentistry without having to manage a practice, while others have chosen to work with us part time while developing their own practice. For those wishing to start a family, our ability and willingness to accommodate flexible schedules is another attractive feature of working for Louisiana Dental Center. Louisiana Dental Center is truly a family of professionals and supports the varied lifestyles and family demands that our doctors present. If you're interested in joining our family of professionals, please contact Aaron Etzkin at 985/345-0240, or apply online at www.ladentalcenter.com.

ASSOCIATE NEEDED - Belle Chasse Dental Office needs an associate for one day a week. Please call 504/394-6200 for details.
